DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: The claimed cartridge memory read/write device used in a production line of plural kinds of cartridges as set forth in claim 1 and the cartridge memory read/write device used in a tape winder as set forth in claim 5 that includes plural read/write units that correspond to plural respective kinds of cartridge memories and a control unit that selects between the read/write units with respect to the kind of memory unit present for the purpose of increasing productivity of a production line by eliminating stop time is neither taught by nor an obvious variation of the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Okada et al. teaches to change the mode of operation based on the type of cartridge present. Gardner teaches a general tap production arrangement. Wada et al. teaches to detect defective cassettes and distribute them to appropriate areas.
